Forecast For Dumfries, Galloway, Lothian & Borders
Issued by Met Office Aberdeen
at 0400 on Thursday 28 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Periods of rain, initially turning wintry to quite low levels.

Today:
An overcast day with periods of rain, which fall as sleet and snow during the morning and perhaps early afternoon to quite low levels. Easterly winds fresh to strong at first across western coasts. Maximum temperature 6 deg C (43 deg F).

Tonight:
Overcast with further periods of rain which occasionally turn heavy across Dumfries and Galloway. Winds east to northeast, increasing fresh to strong across the coasts overnight. Minimum temperature -1 deg C (30 deg F).

Friday:
Dull, wet and windy start to the day with periods of rain. Slowly and erratically the rain will clear southwards to bring a dry and bright end to the day. Maximum temperature 6 deg C (43 deg F).

Outlook for Saturday to Monday:
Mainly dry, bright, but cold with widespread frost. Perhaps isolated wintry showers around east coast, also risk periods of rain, snow spreading to Dumfries and Galloway at times Sunday, Monday.
